SECTION VI

AIR MEDAL – By direction of the president, under the provisions of Executive Order No 9158, 11 May 1942 (Bulletin 25, WD 1942), as amended by Executive Order No 9242-A, 11 September 1942 (Bulletin 49, WD, 1942), and pursuant to authority delegated by the Deputy Commander, Twentieth Air Force in classified letter, file AG 323 - 361 subject , “Definition of Administrative Responsibilities”, dated 18 December 1944, announcement is made of the award of the Air Medal to the following named officers and enlisted men, organizations indicated:

For meritorious achievement while participating in aerial flights as combat crew members in successful combat missions against the Japanese Empire. All missions were flown under rapidly changing and oftentimes adverse weather conditions. The flights were subjected to enemy anti-aircraft fire and fighter opposition. There were constantly present difficult navigational problems, danger of engine failure and consequent ditching many miles at sea. Under prolonged periods of physical and mental strain, and undaunted by the many hazards faced regularly and continuously, each crew member displayed such courage and skill in the performance of his duty as to reflect great credit on himself and the Army Air Forces.
