**NOTES: Regarding the Special Order 21 - Lincoln AAF - 21 January 1945**

Some areas of the original copy of this order were found to be damaged. Possibly by the fact that the original copies of this order were produced on an old style mimeograph machine and the paper probably became folded over as it was going thru the machine therefore some areas were not printed with full content. on page 2 of this order, parts of Crew #364 and #366 were only partially readable, however, comparing the legible areas to other documents, some information was able to be determined to complete the crew members info. Information on EM's could not be determined at the time of transcription.
