Transcriber's Notes:

This document was originally classified as "RESTRICTED", however, since it has been close to 60 years since the original issue, the classification is no longer valid.

Information that was not transcribed into this copy, mainly for the purposes of identification, were the military service numbers of the listed personnel.

Also, current information on the personnel listed within the pages document, is NOT KNOWN to the transcriber. Whether any of these personnel are still living today, is not known.

Also, it is NOT KNOWN where these men resided before or after WWII.

Acronyms used by the Army Air Corps/ U.S. Army at the time and some listed in this document include the following:

AC = Air Corps	USA = U.S. Army
MC = Medical Corps	Hq = Headquarters
ASG = Air Service Group	OIC = Officer in Charge
CFC = Central Fire Control	UR = Unit Reserve
VOCG = Vocal Order Commanding General	AAB = Army Air Base
Tyl = Travel	o/a = On or About

A few other acronyms appear, but at the time of this transcription, it is not known what they stand for.

The purpose of presenting this document, is for research purposes only. Family members of those listed might find this information helpful in tracing their genealogy.

Many of those that served during the war, may not have liked to talk about it to their families or many of these men may have been casualties and their families may have never known of the positions that their father or grandfather held.

A great number of military records were lost in a fire at the National Records Archive in St Louis in 1973, so families doing research are unable to obtain service record information, but this document may be a starting point.

The transcriber, Raymond L Martin Sr, is the son of the 1st LT Edward L Martin that shows up on page 2 of this document. I will also be publishing more documents and names of other members from other records that I have available listing many of the men of the 313th Bomb Wing of the 20th Army Air Force in the near future.

This document published October 3, 2003
