

HEADQUARTERS 313TH BOMBARDMENT WING
APO 247, % Postmaster
San Francisco, California

19 June 1945

SUBJ: Commendation on Mar 1945 Operations.

TO: All Personnel.

1. B-29s of the 313th Bombardment Wing have successfully mined the waters of Nippon's Inland Waterways, and along with other units of the XXI Bomber Command have burned out and demolished whole sections of important Japanese Cities, war industries, harbors and airfields.
2. The records show an increase of sorties flown by our Superfortresses, better maintenance of aircraft, greater bomb loads carried per plane, and excellent administrative handling and coordination of the effort during the month just past.
3. I commend each man and officer assigned to this organization, flying and ground personnel alike, for the excellent job that he is doing in his particular job, and for his unselfish devotion to duty which resulted in the operation of the 313th Wing as one great unified fighting team.

/s/ John H. Davies,
JOHN H DAVIES,
Brigadier General Commanding.
